Work As Worship Retreat

For Christians who also happen to be business professionals, faith and work don't often intersect. The connection between faith and work is not always obvious, but it is a God-given calling to make them connect. What if all Christians saw work as something holy? And what if work was actually an opportunity to worship God?

The Bible is full of examples of people living their daily lives on an eternal mission, weaving together their faith and work in their everyday lives. Like the men and women of the Bible, God designed Christians to worship AND work together.
